

Radar (ASR/SSR/MSSR) and MSDPS Refresher Course for ATSEP

Duration: 7 working days

Objective

After completing this course, the trainee will be refreshed theoretically and practically on primary radar, secondary radar, mono pulse secondary surveillance radar and multi-sensor data processing systems.

Course content

- Primary Surveillance Radar (PSR)
- Secondary Surveillance Radar (SSR)
- SSR mode S
- Mono pulse Secondary Surveillance Radar (MSSR)
- Multi-sensor Data Processing System (MSDPS)

Remark: References

NEC Corporation

- a. Equipment Manual SSR interrogator
- b. System manual Multi-sensor Surveillance Data Processing System

Language of instruction: English

Target Audience

- Radar Engineer
